

Carpool parking area

Circular bicycle shelter and contemporary bus shelters

This stand meets the quality standards of the Dutch "Fietsparkeur" foundation

Project: Street furniture
On behalf of: Bouwcombinatie Ballast Nedam - van Gelder
Design: Würck Architecten

JAN KUIPERS
NUNSPEET

Specifications

Product description Carpool parking station Beneden-Leeuwen

At the carpool parking area 'Maas en Waalweg' along the N322 in Beneden-Leeuwen Jan Kuipers Nunspeet installed a circular bicycle shelter and two matching, contemporary bus shelters. Underneath the bicycle shelter a bicycle parking system, meeting the quality standards for FietsParkeur, is integrated in the construction. To reflect the open feel of the area the shelters have been furnished with clear glass walls and roofs. The design is by Würck Architecten from Rotterdam.

Technical information bicycle shelter
